

A built-in batht ub for your new home

The "Viceroy" built-in bath is one of the most beautiful enameled plumbing fixtures ever

It is cast in one piece, and is exceptionally low in price, due to manufacturing economies.

This attractive tub is one of the latest examples of KOHLER trade-marked Enameled Plumbing Ware, which is notable for its high quality and the pure whiteness of the enamel.

Visit our show rooms today and see the "Viceroy," as well as the KOHLER lavatories and sinks we are exhibiting.

A LONG HIKE.

A LONG HIKE.

What is believed to have been one of the longest tropical hikes ever made by American troops thrown on their own resucrees in a hostile country, was the hike made by the Eighth Company, Fourth Regiment of United States Marines, when it covered in an invitation to our next reunion. This being their first meeting with us we sincerely hope it will not be their last.

The year 1915-16 was a very happy and prosperous one for the Clark family. There were no deaths reported. But there were three births and two marriages, so that we feel company, Fourth Regiment of United States Marines, when it covered in a day and a night, on July 2nd and 3rd, the 111 kilometers between Monte Christi and Santiago, Santo Domingo, after fighting most of the way. It is seventy-six American miles between these two points and the bild.

But there were three births and two marriages, so that we feel like congratulating ourselves.

The day proved a success in every way and all left feeling that the day had been well spent indeed.
